

## **Addendum to National Energy Guarantee Final Detailed Design Report**

**3 August 2018**

Attached is an updated version of Chart 15 published on page 57 of the National Energy Guarantee Final Detailed Design paper. This addendum corrects for a minor error in the reporting of a selection of aggregated annual generator outputs by region. This correction affects the chart graphic only, and there are no changes to the analysis, figures or text in the report.

The Chart has also been corrected in the online version of the National Energy Guarantee Final Detailed Design report, available at:

<http://coagenergycouncil.gov.au/publications/energy-security-board-%E2%80%93-final-detailed-design-national-energy-guarantee>

Energy Security Board

**Chart 15: Panel of projected jurisdictional energy mix (sent out) – Guarantee scenario**
