**RE: Energy Security Board Consultation on National Energy Guarantee Amendments**

The National Farmers' Federation (NFF) welcomes the opportunity to make a submission to the *Draft National Electricity (SA) (National Energy Guarantee) Amendment Bill 2018*. While there is some uncertainty regarding the National Energy Guarantee on the Commonwealth level, NFF considers this Bill takes a further step towards ensuring certainty for farmers within energy policy.

The NFF has reviewed the Bill and have found little concern thus far. If difficulty arises in the future, NFF will provide further information.

The NFF urges jurisdictions to maintain the process of agreeing and legislating the National Electricity Law.

Yours sincerely
