

8 March 2018

The Energy Security Board,

To whom it may concern

**ENERGY SECURITY BOARD NATIONAL ENERGY GUARANTEE –  
CONSULTATION PAPER**

Attached please receive a submission on the issued ESB NEG Consultation Paper. The Guarantee is important for Xaris as it is supposed to ease access to the market for new entrants into the market. It is further important to address as many as possible issues with the Guarantee prior to its implementation. This is to reduce compliance issues for participants requiring to make significant amendments post implementation.

Should you require any additional information kindly contact me or Mr. Deon Breytenbach ([deon@xaris.com.au](mailto:deon@xaris.com.au)).

Regards

Hennie Steyn
